Approved_Claims_Register.pdf

Tier: TIER_1 | Version: 1.0 | Scope: Nexora Pro | Status: DRAFT

--- Section / Chunk #1 (Authoritative Source Content) ---

Approved Promotional Claims Register: The following promotional claims are officially approved for commercial and marketing use: (1) '99.9% guaranteed uptime SLA backed by 24/7 dedicated enterprise support' - Supporting Evidence: Documented infrastructure telemetry and SLA commitment in Product Master Catalogue v4.2. (2) 'Certified SOC 2 Type II, ISO 27001, and fully GDPR compliant' - Supporting Evidence: Independent third-party security audit reports issued Q3 2026. (3) 'System throughput supports 50,000 document governance verifications per hour' - Supporting Evidence: Official enterprise load-testing benchmark report certified by engineering. (4) 'Military-grade AES-256 encryption at rest and TLS 1.3 in transit' - Supporting Evidence: Architecture security specification document.

Qualified Claims vs Unsupported & Prohibited Claims: Claims Requiring Qualifications: (1) Speed and efficiency claims such as 'up to 2x faster verification' must always include the mandatory qualification: 'when compared to traditional manual review of 50+ page documents; certified by internal productivity benchmark study'. (2) Volume pricing claims must specify: 'applicable exclusively to enterprise contracts exceeding 100 seats'. Prohibited & Unsupported Claims: Claims promising absolute, unsubstantiated guarantees (e.g., '100% error-free guarantee', 'foolproof compliance', 'zero risk guaranteed', or 'flawless brand protection') are strictly prohibited under brand governance. Unsupported superiority claims (e.g., 'the only real AI brand solution on Earth' or 'infinitely superior to all competitors') are prohibited without certified independent third-party market validation.
