Nexora Brand Guidelines - Product Nomenclature and Messaging: The official product name is strictly 'Nexora Pro' or 'Nexora Pro Elite'. Unapproved informal variant names such as 'Nexora Standard', 'Nexora Lite', or 'Nexora Basic' are brand terminology violations. Brand tone must remain authoritative, professional, and factual.

Performance and Promotional Claims: Any claim asserting performance improvements (such as '100% faster', 'fastest solution', or '2x speedup') must cite an approved certified laboratory benchmark study. Unsupported superlative claims are strictly prohibited without compliance sign-off.
