Brand_Guidelines_v3.pdf

Tier: TIER_1 | Version: 3.0 | Scope: ALL | Status: DRAFT

--- Section / Chunk #1 (Authoritative Source Content) ---

Nexora Brand Personality, Tone, and Voice Standards: Brand Personality: Nexora is strictly defined as professional, trustworthy, helpful, and approachable. Tone and Voice: Our communication voice must be consistently respectful, confident, clear, and customer-focused across all marketing copy, sales documents, and public statements. Writing Style: Communicate with formality and precision. Avoid confusing technical jargon, ungrounded superlatives, and passive bureaucratic phrasing. Always prioritize actionable, clear, and direct explanations.

--- Section / Chunk #2 (Authoritative Source Content) ---

Prohibited Language and Conduct Guidelines: Insults, offensive expressions, aggressive language, and disrespectful communication are strictly prohibited. Unacceptable Example: 'Our competitor\'s junk software is a scam and anyone using it is foolish.' Approved Example: 'Nexora Pro delivers 99.9% verified uptime with enterprise governance, helping teams transition from legacy spreadsheets with ease.' Unacceptable Example: 'Buy today or regret it immediately.' Approved Example: 'Explore how Nexora Pro streamlines brand assurance for your enterprise.' Slogans and Messaging Pillars: Official Slogan: 'Create with confidence. Publish with consistency.' Official Positioning: Nexora Technologies is the pioneer in deterministic brand-governance infrastructure.

--- Section / Chunk #3 (Authoritative Source Content) ---

Visual Standards and Digital Accessibility (WCAG 2.1 AA): Logo Usage: The Nexora monogram ('CL' monogram) requires clear space equal to 50% of its height on all sides. Minimum reproduction height is 24px digital and 12mm print. Never recolour, distort, stretch, or rotate the logo. Brand Colour Palette: Deep Navy (#0A1F36 - Primary), Brand Teal (#0F766E - Secondary), Light Teal (#5EEAD4 - Accent), Canvas Slate (#F8FAFC). Typography: Inter (UI/Body) and Plus Jakarta Sans (Headings). Digital Accessibility: All digital content must meet WCAG 2.1 AA contrast standards (minimum 4.5:1 text-to-background contrast ratio). All images and graphics require descriptive alternative text (alt text). Form controls and interactive elements must feature visible high-contrast focus rings.
