Terminology_and_Messaging_Guide.pdf

Tier: TIER_1 | Version: 1.0 | Scope: ALL | Status: DRAFT

--- Section / Chunk #1 (Authoritative Source Content) ---

Official Product Names and Terminology Guide: Official Product Names: The primary brand governance offering must always be named 'Nexora Pro' or 'Nexora Pro Elite'. Strictly prohibited product names include 'Nexora Standard', 'Nexora Lite', 'Nexora Basic', 'Nexora App', or 'The Nexora Tool'. Approved Core Terminology: Use 'Brand Governance Engine', 'Deterministic Authority Hierarchy', 'Evidence-Backed Verification', 'Automated Compliance Audit', and 'Immutable Governance Ledger'. Prohibited Informal Terminology: Do not use informal, colloquial, or punitive terms such as 'AI Judge', 'Grammar Cop', 'Cheat Checker', or 'Fact Bot'. Refer instead to 'Automated Verification' or 'Authorised Human Reviewer'.

Official Corporate Descriptions and Messaging Pillars: 25-Word Official Description: 'Nexora Technologies provides enterprise-grade AI brand governance platforms that deterministically audit content claims against authoritative multi-tier corporate guidelines before publication.' 50-Word Official Boilerplate: 'Founded to safeguard organisational reputation, Nexora Technologies builds deterministic brand-governance infrastructure. Its flagship platform, ClaimLedger, enables content creators and brand reviewers to verify marketing copy, sales proposals, and corporate communications against strict hierarchical standards in real time.' Core Messaging Pillars: (1) Deterministic Authority: Multi-tier hierarchy ensures company-wide truth supersedes departmental variants. (2) Seamless Workflow: Instant feedback empowers creators while preserving reviewer authority. (3) Immutable Auditability: Cryptographic logs ensure regulatory compliance.
